

2006 Subaru Legacy Wagon available now, located in Sapporo

2006 Subaru Legacy Wagon

2.0 GT Engine - turbo charged

77,000 km

Automatic gearbox, with tiptronic option.

AWD

Shaken until December 2019 (18 months) and car tax for 2018 paid.

Comes with new 17inch winter and summer tires on separate alloys.

No rust.

No accidents or rebuilds.

This has been our family car for the last 2 and half years and is a dream to drive. It was bought with the intention of shipping it back home, but we have decided to go to another country and our visas don't support car importation. That is the only reason we are selling it.

Reliable, plenty of power and very safe during Hokkaido winters. Uses regular gasoline.

Meticulously washed in winter to prevent rust and has been painted underside.
